MASTER FUND FACT SHEET

TAKAFUL & US

Takaful literally means responsibility, guarantee, collective assurance and mutual undertaking. Broadly speaking, takaful is founded on the mutual assistance (*Ta'awun*) based on principles of mutuality and solidarity, encompassing the elements of joint indemnity and common interest. Takaful is defined under Section 2 of the Islamic Financial Services Act 2013, to mean an arrangement based on mutual assistance under which takaful participants agree to contribute to a common fund providing for mutual financial benefits payable to the takaful participants or their beneficiaries on the occurrence of pre-agreed events.

Depending on the applicable approved Takaful model, participants' contributions shall be channelled into the relevant segregated funds for investments. Our Funds* are solely invested in Shariah-compliant investments, locally and abroad. Each investment is made after taking into consideration the risk and return involved.

At Prudential BSN Takaful Berhad (PruBSN), we uphold these values through professional practice in order to give the customers everything they need and more. Values that are clearly reflected in each and every one of our transactions. Values that make us a prudent choice.

Through agency and partnership channels, we offer a variety of innovative products that cover you in every aspect of your life. From protection to savings to spiritual fulfilment, each of our product is designed to provide peace of mind for you.

* Takafulink Funds are Shariah-compliant investment instruments.
