## BRING PEACE INTO YOUR LIFE

Life can lead us down unexpected paths and make our worst fears come true. When that happens, we may not be prepared for it. Although generally, life expectancy rates have improved, there are still some of the leading causes of early death in the country such as cancer, kidney disease, heart disease and diabetes among other chronic diseases.

The rise in the number of Malaysians suffering from non-communicable diseases is worrying. Healthcare expenses are also increasing due to the rising number of patients with chronic and/or recurrent illnesses.

No one knows when an illness might occur. If it does and you don't have the right medical coverage, you have to pay the entire cost of your medical care yourself. It is important that you are prepared financially for the unexpected. Having a comprehensive medical plan will give you peace of mind as you know you are protected financially if you fall ill. It is always better to be safe than sorry.

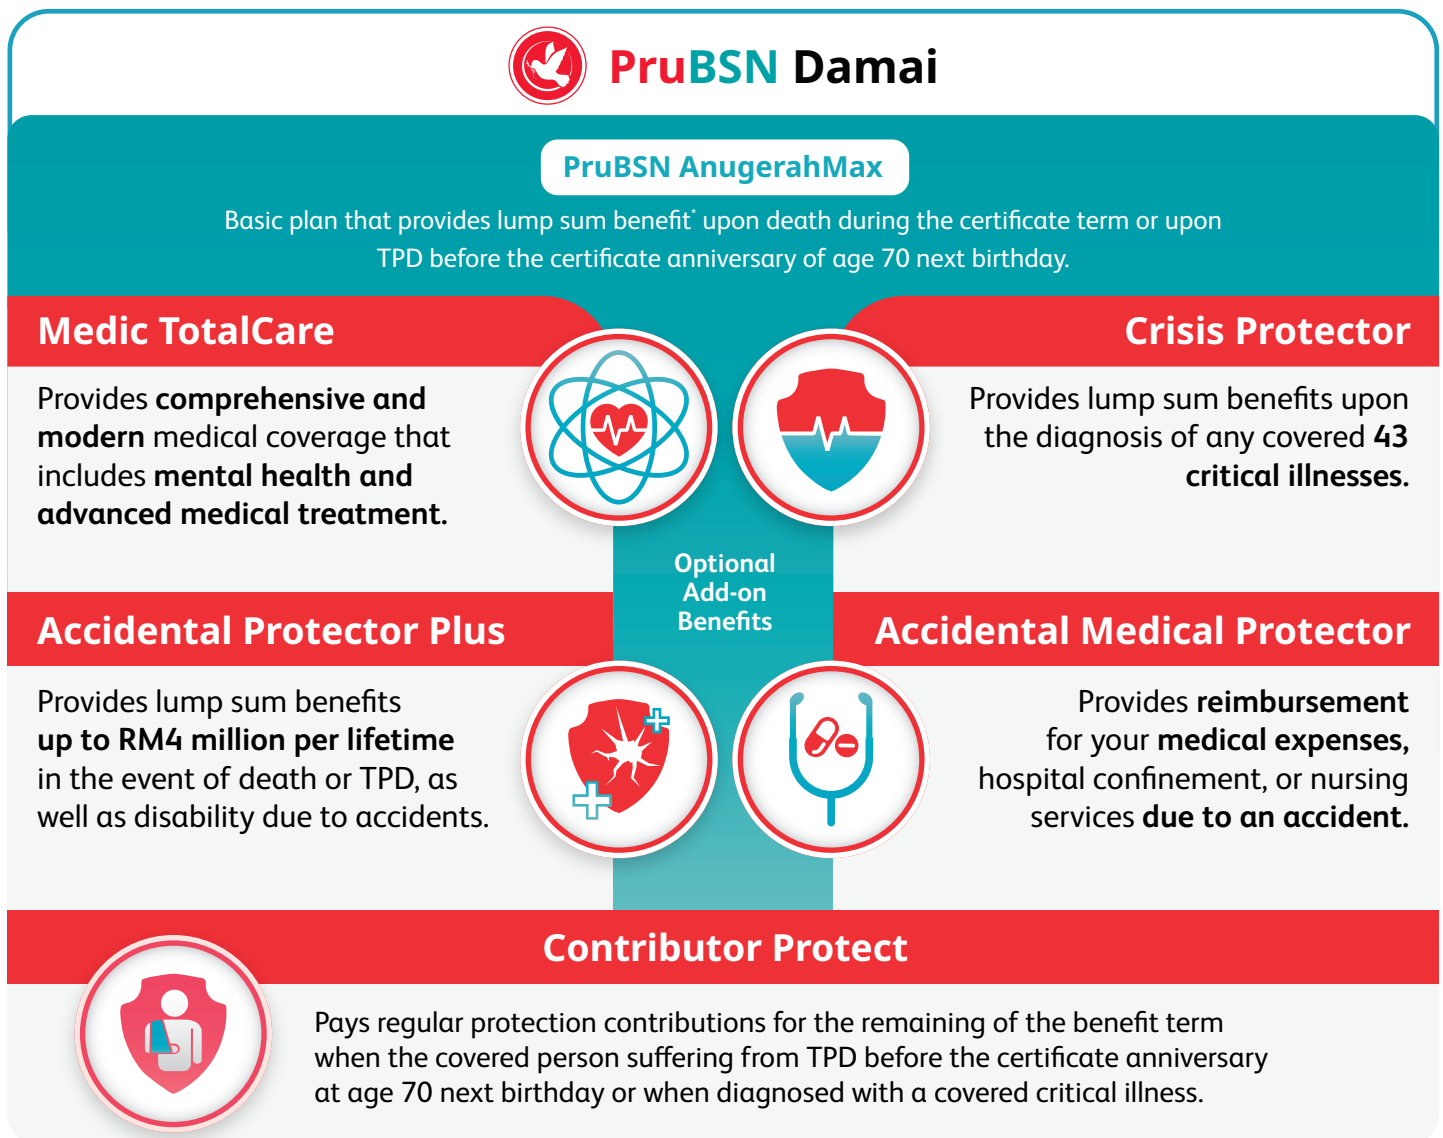

**PruBSN Damai** is here to provide you with peace of mind and protect you from unforeseen circumstances and a lack of funding for medical care. At PruBSN, we always encourage our customers to get protection while they are still young and healthy.

Say 'goodbye' to being caught offguard by unexpected life changes and 'hello' to peace of mind with **PruBSN Damai**. **PruBSN Damai** is a comprehensive medical solution package that modernises your coverage by using **PruBSN AnugerahMax** as the base plan with **Medic TotalCare** rider and other recommended add-on benefits.

This solution helps you overcome your worries and concerns about healthcare, including covering your hospitalisation bills when you need medical attention. It also provides income replacement if you are diagnosed with a critical illness to assist your recovery journey.

**PruBSN AnugerahMax** is a regular contribution takaful plan which pays lump sum amount\* upon death or Total and Permanent Disability (TPD). On top of this, **PruBSN AnugerahMax** is flexible and customisable as it comes with various choices on coverage term and optional add-on benefits in meeting your needs and affordability.

Here is an overview of the recommended package solution for **PruBSN Damai**:

\*Note: Upon the death of the covered person, PruBSN AnugerahMax pays the higher of the Basic Sum covered person or the amount in the Individual Special Account (ISA), plus values of unit in Investment Unit Account (IUA), if any. In the event that the covered person is totally and permanently disabled before age 70 next birthday, the Sum at Risk (the difference between the Basic Sum Covered and the ISA amount) will be payable.

The costs of the eligible benefit accumulated for that year will not be carried forward to the next year.
