MASTER FUND FACT SHEET 2023

## TAKAFUL & US

---

Takaful literally means responsibility, guarantee, collective assurance and mutual undertaking. Broadly speaking, takaful is founded on the cooperative arrangement (*Ta'awun*) based on principles of mutuality and solidarity, encompassing the elements of joint indemnity and common interest. Takaful is defined under Section 2 of the Islamic Financial Services Act 2013, to mean an arrangement based on mutual assistance under which takaful participants agree to contribute to a common fund providing for mutual financial benefits payable to the takaful participants or their beneficiaries on the occurrence of pre-agreed events.

Depending on the applicable approved Takaful model, participants' contributions shall be channelled into the relevant segregated funds for investments. Our Funds\* are solely invested in Shariah-compliant investments, locally and abroad. Each investment is made after taking into consideration the risk and return involved.

At Prudential BSN Takaful Berhad (PruBSN), we uphold these values through professional practice in order to give the customers everything they need and more. Values that are clearly reflected in each and every one of our transactions. Values that make us a prudent choice.

Through agency and partnership channels, we offer a variety of innovative products that cover you in every aspect of your life. From protection to savings to spiritual fulfilment, each of our product is designed to provide peace of mind for you.

*\* Takafulink Funds are Shariah-compliant investment instruments.*

### Information of the Target Fund

#### Eastspring Investments Islamic Small-cap Fund

##### Investment Strategy

The Target Fund seeks to achieve its objective by investing in Shariah-compliant equities and Shariah-compliant equity-related securities, such as rights and Shariah-compliant warrants of small-cap companies listed in Malaysia with market capitalisation up to RM5 billion. When the market capitalisation of the companies within the portfolio increases beyond RM5 billion after the point of acquisition, the Target Fund will not increase its holdings in Shariah-compliant equities and Shariah-compliant equity-related securities of such companies. However, the Target Fund may remain to be invested in those Shariah-compliant equities and Shariah-compliant equity-related securities which have grown over time in the Target Fund's portfolio.

To identify such companies, the Target Fund Manager will adopt a systematic fundamental research and valuation driven investment approach where quality of management, strength of business model, industry dynamics, drivers of profitability and sustainability of earnings are assessed to identify Shariah-compliant stocks that the market has undervalued and exploit such opportunities.

The Target Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities and the assessment of the Target Fund Manager.

*Note: Small market capitalisation means companies listed in Malaysia with a market capitalisation of up to RM5 billion at the point of acquisition.*
