Monthly Update / Laporan Bulanan Terkini

Equities

Market Review

Malaysian equity markets closed lower for the sixth consecutive month in June. Foreign investors continued to be net sellers of equities for the month of June and have been for the tenth consecutive month. During the month, Bank Negara Malaysia announced that the Yang di-Pertuan Agong has consented to the appointment of Datuk Shaik Abdul Rasheed bin Abdul Ghaffour as Governor for a five-year term effective 1 July 2023 to 30 June 2028. The FBM Emas Shariah Index closed the month at 10,414.87 down 1.81% mom. The FBM Small Cap Shariah index was down slightly at 0.41% for the month and slightly outperformed the FBM Emas Shariah Index.

Market Outlook

Global political issues continue to fester, without any resolution of the Russia-Ukraine conflict, and US-Sino relations remain tense. Whilst the global banking crisis seems to have so far been averted, it is still early days and this still something investors will remain vigilant about. There are still some diverging views on the risk of a recession, but for now, economic data from the US still points to resilience, resulting in the more hawkish tone from the US FOMC. Domestically, equity markets have been listless, and the Election Commission has announced that all six states will have State Election on the 12 August. Our base case is still for the status quo to remain for in those states, and hence the Federal Unity government can continue their administration. Uncertainty stemming from this remains an overhang on the market. During this period of uncertainty, we would accumulate fundamentally sound stocks on weakness.

Fund Review & Strategy

The Fund returned -0.38% for the month, outperforming the benchmark return of -0.41% by 0.03%. Year-to-date, the fund returned -1.13%, outperforming the benchmark return of -1.65% by 0.52%. The outperformance in June was due to the underlying fund's overweight position in consumer discretionary sector. We will selectively increase equity exposure as and when we see opportunities in the market and will build positions for the longer term. The Fund seek to invest in fundamentally strong companies with above market growth potential. The Fund will stay flexible and agile to seek value to invest during heighten market volatility.

Ekuiti

Tinjauan Bulanan

Pasaran ekuiti Malaysia ditutup rendah, berturut-turut sejak enam bulan yang lalu pada Jun. Pelabur asing terus menjadi penjual bersih ekuiti pada Jun, situasi yang serupa pada bulan kesepuluh berturut-turut. Pada bulan tinjauan, Bank Negara Malaysia mengumumkan bahawa Yang di-Pertuan Agong telah memperkenankan pelantikan Datuk Shaik Abdul Rasheed bin Abdul Ghaffour sebagai Gabenor berkuat kuasa mulai 1 Julai 2023 hingga 30 Jun 2028, bagi tempoh lima tahun. Indeks FBM Emas Shariah berakhir pada 10,414.87 turun 1.81% MoM. Indeks FBM Small Cap Shariah turun sedikit, 0.41% pada bulan tersebut dan mengatasi prestasi Indeks FBM Emas Shariah sedikit.

Gambaran Bulanan

Isu politik global terus meruncing, tanpa sebarang penyelesaian konflik Rusia-Ukraine, manakala hubungan US-China masih lagi tegang. Walaupun krisis perbankan global setakat ini nampaknya dapat dielakkan, namun ia masih awal dan pelabur akan tetap berwaspada tentangnya. Masih terdapat beberapa pandangan yang berbeza tentang risiko kemelesetan, namun buat masa ini, data ekonomi dari US masih menunjukkan kemampanan, lalu mengakibatkan nada yang lebih agresif dari FOMC US. Di dalam negeri, pasaran ekuiti lesu, manakala Suruhanjaya Pilihan Raya telah mengumumkan bahawa kesemua enam negeri akan mengadakan Pilihan Raya Negeri pada 12 Ogos. Asas pendekatan kami ialah mengekalkan status quo di negeri-negeri tersebut, agar dengan itu kerajaan Perpaduan Persekutuan boleh meneruskan pentadbirannya. Ketidakpastian yang berpunca daripada hal tersebut masih lagi terjurai di pasaran. Dalam tempoh ketidakpastian ini, kami akan mengumpul saham berasas kukuh pada harga yang lebih rendah.

Tinjauan dan Strategi Dana

Dana mencatat pulangan -0.38% pada bulan ini, mengatasi pulangan penanda aras -0.41% sebanyak 0.03%. Sejak awal tahun sehingga bulan tinjauan, Dana memulangkan -1.13%, mengatasi pulangan penanda aras -1.65% sebanyak 0.52%. Prestasi baik pada Jun disumbangkan oleh kedudukan pegangan berlebihan pendasar Dana dalam sektor pengguna bukan keperluan. Kami secara terpilih akan meningkatkan pendedahan ekuiti apabila kami melihat peluang sedemikian tersedia di pasaran dan akan membina kedudukan jangka panjang. Dana berusaha untuk melabur dalam syarikat yang pada asasnya kukuh dengan potensi pertumbuhan melangkaui pasaran. Dana akan kekal fleksibel dan tangkas untuk memburu nilai agar dilaburkan semasa volatiliti pasaran bertambah.
