All information as at 31 August 2023 unless otherwise stated

Semua maklumat adalah seperti pada 31 Ogos 2023 melainkan jika dinyatakan

## Objective / Objektif Dana

Takafulink Dana Dinamik aims to provide investors with capital appreciation by investing in a Sub-Fund called Eastspring Investments Dana Dinamik. The Fund provides exposure to investments in Shariah approved equities and equity related securities. For defensive considerations, the Fund may invest in Shariah-approved debentures and money market instruments.

Takafulink Dana Dinamik ini bertujuan untuk menyediakan peningkatan modal kepada pelabur dengan melabur dalam satu Sub-Dana iaitu Eastspring Investments Dana Dinamik. Dana ini memberi pendedahan kepada pelaburan dalam ekuiti patuh Syariah dan sekuriti berkaitan ekuiti. Sebagai pertimbangan defensif, Dana boleh melabur dalam debentur yang diluluskan oleh Syariah dan instrumen pasaran wang.

## Monthly Update / Laporan Bulanan Terkini

### Market Review

Malaysian equity markets outperformed regional markets for the second consecutive month in August. Malaysia had an eventful month where the State Elections were held in 6 states, which resulted in a status quo outcome: PH/BN won 3 states and PN won 3 states as well. The government launched Phase 2 of National Energy Transition Roadmap ("NETR") end of August, providing some details on the energy exchange hub to enable cross border RE trading, with the Prime Minister hinting that the Energy Exchange will hopefully be expedited to ready by end 2023. The surprise for the month was the M&As announced. KLK announced that they will be acquiring a 33% +1 share in Boustead Plantations (with intention to acquire the remaining shares not owned, acting in concert with LTAT), and Sime Darby is proposing to take over UMW. The Malaysian Ringgit depreciated 3.1%, after hitting a low of RM4.507/USD on 31 July 2023, and foreign investors were net buyers of Malaysian equities of RM0.2b, the second consecutive month of inflows. The FBM Emas Shariah Index closed the month at 10,920.64, down 0.29% mom. The FBM Small Cap Shariah index rose by 3.77% for the month and outperformed the FBM Emas Shariah Index.

### Market Outlook

Global political issues continue to fester, without any resolution of the Russia-Ukraine conflict, and US-China relations remain tense. There are still some diverging views on the risk of a recession, but for now, economic data from the US still points to resilience, and inflation expectations have been tempered, although this remains fluid with continued volatility in commodities such as grains and oil. Domestically, equity markets were resilient in August with a lot of news flow from the government and corporate M&As announced. We have 2 by-elections which will again provide a further signal for the incumbent government on sentiment towards them. Nevertheless, expect the Federal Unity government to continue their administration. The recent reforms announced by the government are setting the macro framework for Malaysia, which is a step in the right direction, but more details are required. We are cautiously optimistic on the outlook but continue to monitor the external environment.

### Fund Review & Strategy

The Fund returned 0.38% for the month, outperforming the benchmark return of -0.01% by 0.39%. Year-to-date, the fund returned 1.28%, outperforming the benchmark return of 0.94% by 0.34%. The outperformance in August was mainly attributed to the underlying Fund's overweight positions in selected industrial, property and automotive stocks. For equity, we look to adopt a tactical approach as market is expected to remain volatile in the near term. We continue to focus on companies where fundamentals remain solid and look for opportunities to buy on weakness for longer term growth. For fixed income, the Fund would look to participate in selected quality issuances for yield pick-up, and trade on market volatility, subject to liquidity constraints.

### Tinjauan Bulanan

Pasaran ekuiti Malaysia mengatasi prestasi pasaran serantau buat bulan kedua berturut-turut pada Ogos. Malaysia menelusuri bulan yang sarat peristiwa sebelumnya Pilihan Raya Negeri diadakan di 6 buah negeri, yang menghasilkan keputusan status quo: PH/BN memenangi 3 negeri manakala PN memenangi 3 negeri juga. Kerajaan melancarkan Fasa 2 Pelan Hala Tuju Peralihan Tenaga Negara ("NETR") pada akhir Ogos, memberikan beberapa butiran mengenai hab pertukaran tenaga untuk membolehkan perdagangan Tenaga Boleh Diperbaharui merentas sempadan, dengan Perdana Menteri membayangkan bahawa kesiagaan Bursa Tenaga diharap dapat dipercepat menjelang akhir 2023. Dalam satu langkah mengejut, KLK mengumumkan bahawa ia akan memperoleh 33% +1 saham dari Boustead Plantations (dengan niat untuk memperoleh baki saham yang tidak dimiliki, bertindak seiring LTAT), dan Sime Darby bercadang untuk mengambil alih UMW. Ringgit Malaysia menyusut 3.1%, selepas mencecah paras terendah RM4.507/USD pada 31 Julai 2023, manakala pelabur asing merupakan pembeli bersih ekuiti Malaysia bernilai RM0.2 bilion, aliran masuk bulan kedua berturut-turut. Indeks FBM Emas Shariah menutup bulan dagangan pada 10,920.64, turun 0.29% MoM. Indeks FBM Small Cap Shariah meningkat 3.77%, mengatasi prestasi Indeks FBM Emas Shariah.

### Gambaran Bulanan

Isu politik global terus membara, tanpa sebarang penyelesaian konflik Rusia-Ukraine, manakala hubungan US-China kekal tegang. Masih terdapat pandangan yang berbeza tentang risiko kemelesetan, tetapi buat masa ini, data ekonomi US masih menunjukkan kemampunan, dan jangkaan ketegangan inflasi telah pun mengendur, walaupun ianya masih berkocak lantaran ketaktentuan komoditi seperti bijirin dan minyak. Di dalam negeri, pasaran ekuiti mampang pada Ogos dengan aliran berita yang bertalu-talu daripada kerajaan dan pengumuman M&A korporat. Dua pilihan raya kecil yang berlangsung sekali lagi akan memberi isyarat kepada kerajaan sedia ada mengenai sentimen terhadap mereka. Namun begitu, penerusan pentadbiran kerajaan Perpaduan Persekutuan dijangkakan. Pembaharuan yang diumumkan oleh kerajaan baru-baru ini menetapkan rangka kerja makro buat Malaysia, satu langkah pada arah yang betul, tetapi butiran lanjut diperlukan. Kami berhati-hati meskipun optimistik terhadap prospek namun terus memantau persekitaran luaran.

### Tinjauan dan Strategi Dana

Dana menjana pulangan 0.38% pada bulan ini, mengatasi pulangan penanda aras -0.01% sebanyak 0.39%. Sejak awal tahun sehingga bulan tinjauan, Dana memulangkan 1.28%, mengatasi pulangan penanda aras 0.94% sebanyak 0.34%. Prestasi memberangsangkan pada Ogos disumbangkan terutamanya oleh kedudukan wajarnya berlebihan pendasar Dana dalam saham industri, hartanah dan automotif tertentu. Meninjau ekuiti, kami melihat untuk menggunakan pendekatan taktikal kerana pasaran dijangka masih lagi tidak menentu dalam tempoh terdekat. Kami terus memberi tumpuan kepada syarikat berbasas mantap dan mencari peluang untuk membeli ekoran kelemahan bagi pertumbuhan jangka panjang. Menyorot pendapatan tetap, Dana akan melihat untuk mengambil bahagian dalam terbitan berkualiti terpilih bagi peningkatan hasil, dan berdagang meskipun pasaran tidak menentu, tertakluk kepada kekangan mudah tunai.
