Monthly Update / Laporan Bulanan Terkini

Equities

Market Review

Malaysian equity markets outperformed regional markets for the second consecutive month in August. Malaysia had an eventful month where the State Elections were held in 6 states, which resulted in a status quo outcome: PH/BN won 3 states and PN won 3 states as well. The government launched Phase 2 of National Energy Transition Roadmap ("NETR") end of August, providing some details on the energy exchange hub to enable cross border RE trading, with the Prime Minister hinting that the Energy Exchange will hopefully be expedited to ready by end 2023. The surprise for the month was the M&As announced. KLK announced that they will be acquiring a 33% +1 share in Boustead Plantations (with intention to acquire the remaining shares not owned, acting in concert with LTAT), and Sime Darby is proposing to take over UMW. The Malaysian Ringgit depreciated 3.1%, after hitting a low of RM4.507/USD on 31 July 2023, and foreign investors were net buyers of Malaysian equities of RM0.2b, the second consecutive month of inflows. The FBM Emas Shariah Index closed the month at 10,920.64, down 0.29% mom. The FBM Small Cap Shariah index rose by 3.77% for the month and outperformed the FBM Emas Shariah Index.

Market Outlook

Global political issues continue to fester, without any resolution of the Russia-Ukraine conflict, and US-China relations remain tense. There are still some diverging views on the risk of a recession, but for now, economic data from the US still points to resilience, and inflation expectations have been tempered, although this remains fluid with continued volatility in commodities such as grains and oil. Domestically, equity markets were resilient in August with a lot of news flow from the government and corporate M&As announced. We have 2 by-elections which will again provide a further signal for the incumbent government on sentiment towards them. Nevertheless, expect the Federal Unity government to continue their administration. The recent reforms announced by the government are setting the macro framework for Malaysia, which is a step in the right direction, but more details are required. We are cautiously optimistic on the outlook but continue to monitor the external environment.

Fund Review & Strategy

The Fund returned -0.06% for the month, outperforming the benchmark return of -0.29% by 0.23%. Year-to-date, the fund returned -0.98%, underperforming the benchmark return of -0.16% by 0.82%. The outperformance in August was mainly due to the Fund's zero exposure in glove stocks as well as underweight positions in mobile telco players. The Fund's overweight in selected oil & gas and consumer discretionary stocks also contributed positively. We continue to aim for a balanced portfolio with a mix of defensive and reopening plays. We prefer high dividend yielders as well as selected healthcare, oil & gas and technology stocks. We also like thematic plays but remain focused on stocks with strong fundamentals e.g. strong earnings visibility and growth, healthy balance sheet, good corporate governance and decent valuations.

Ekuiti

Tinjauan Bulanan

Pasaran ekuiti Malaysia mengatasi prestasi pasaran serantau buat bulan kedua berturut-turut pada Ogos. Malaysia menelusuri bulan yang sarat peristiwa sementelah Pilihan Raya Negeri diadakan di 6 buah negeri, yang menghasilkan keputusan status quo: PH/BN memenangi 3 negeri manakala PN memenangi 3 negeri juga. Kerajaan melancarkan Fasa 2 Pelan Hala Tuju Peralihan Tenaga Negara ("NETR") pada akhir Ogos, memberikan beberapa butiran mengenai hab pertukaran tenaga untuk membolehkan perdagangan Tenaga Boleh Diperbaharui merentas sempadan, dengan Perdana Menteri membayangkan bahawa kesiagaan Bursa Tenaga diharap dapat dipercepat menjelang akhir 2023. Dalam satu langkah mengejut, KLK mengumumkan bahawa ia akan memperoleh 33% +1 saham dari Boustead Plantations (dengan niat untuk memperoleh baki saham yang tidak dimiliki, bertindak seiring LTAT), dan Sime Darby bercadang untuk mengambil alih UMW. Ringgit Malaysia menyusut 3.1%, selepas mencapai paras terendah RM4.507/USD pada 31 Julai 2023, manakala pelabur asing merupakan pembeli bersih ekuiti Malaysia bernilai RM0.2 bilion, aliran masuk bulan kedua berturut-turut. Indeks FBM Emas Shariah menutup bulan dagangan pada 10,920.64, turun 0.29% MoM. Indeks FBM Small Cap Shariah meningkat 3.77%, mengatasi prestasi Indeks FBM Emas Shariah.

Gambaran Bulanan

Isu politik global terus membara, tanpa sebarang penyelesaian konflik Rusia-Ukraine, manakala hubungan US-China kekal tegang. Masih terdapat pandangan yang berbeza tentang risiko kemelesetan, tetapi buat masa ini, data ekonomi US masih menunjukkan kemampuan, dan jangkaan ketegangan inflasi telah pun mengendur, walaupun ianya masih berkocak lantaran ketaktentuan komoditi seperti bijirin dan minyak. Di dalam negeri, pasaran ekuiti mampan pada Ogos dengan aliran berita yang bertalu-talu daripada kerajaan dan pengumuman M&A korporat. Dua pilihan raya kecil yang berlangsung sekali lagi akan memberi isyarat kepada kerajaan sedia ada mengenai sentimen terhadap mereka. Namun begitu, penerusan pentadbiran kerajaan Perpaduan Persekutuan dijangkakan. Pembaharuan yang diumumkan oleh kerajaan baru-baru ini menetapkan rangka kerja makro buat Malaysia, satu langkah pada arah yang betul, tetapi butiran lanjut diperlukan. Kami berhati-hati meskipun optimistik terhadap prospek namun terus memantau persekitaran luaran.

Tinjauan dan Strategi Dana

Dana menghasilkan pulangan -0.06% pada bulan ini, mengatasi pulangan penanda aras -0.29% sebanyak 0.23%. Sejak awal tahun sehingga bulan tinjauan, Dana mengembalikan -0.98%, tidak mengatasi pulangan penanda aras -0.16% sebanyak 0.82%. Prestasi baik pada Ogos disumbangkan terutamanya oleh pendedahan sifir Dana dalam saham sarung tangan serta kedudukan kekurangan wajaran dalam penggiat telekomunikasi mudah alih. Wajaran berlebihan Dana dalam saham minyak & gas tertentu dan pengguna bukan keperluan juga menyumbang secara positif. Kami terus menyasarkan portfolio yang seimbang dengan gabungan tema defensif dan pembukaan semula. Kami lebih mengutamakan penghasil dividen yang tinggi serta saham penjagaan kesihatan, minyak & gas dan teknologi terpilih. Kami juga menyukai saham bertema tetapi kekal fokus pada saham berbasas kukuh contohnya keterlibatan pertumbuhan dan pendapatan yang kukuh, kunci kira-kira yang sihat, tadbir urus korporat yang baik dan penilaian yang munasabah.
