Monthly Update / Laporan Bulanan Terkini

Fund Review & Strategy

The Fund returned -5.71% for the month, underperforming the benchmark return of -3.13% by 2.58%. Year-to-date, The Fund returned -6.91%, underperforming the benchmark return of -3.60% by 3.31%. Global equities fell in March, as US President Donald Trump intensified his campaign of tariffs against major trading partners. The US enacted tariffs and threatened further measures targeting Canada, Mexico and the EU. Stock indices declined across the US, Europe, and the UK, but were little changed in Japan, while emerging markets gained. Central banks in the UK and the US kept interest rates unchanged in March, while they were reduced by 0.25% in Europe. At the stock level, Marvell was a key detractor. Its shares were weak as concerns around possible cuts to hyperscalers' capital expenditure weighed on sentiment. Investors increasingly questioned if Marvell would be able to grow its AI chip business with one of its main clients, AWS. Novo Nordisk's shares declined on the back of concerns around script trends, a disappointing CagliSema data readout, and worries about Eli Lilly's upcoming Orfoglipron data. Accenture was weak during the month despite strong revenue growth. Investors are worried about increased risk to the portion of revenues from federal contracts. On the positive side, Total Energies and other energy stocks rose on the back of rebounding oil prices as US sanctions on Venezuela and Iran and threats of secondary tariffs on Russian oil could tighten market balances. In technology, the Target Fund's underweight position in Microsoft bolstered relative returns as the broader technology space sold off on the back of global growth concerns after US GDP growth was dragged down by possible tariffs. Investors also questioned aggressive investment from the magnificent seven stocks. The Target Fund Manager slightly trimmed their holding in ASML to raise some cash. There was no change to the investment thesis.

Tinjauan & Strategi Dana

Dana menyampaikan pulangan -5.71% pada bulan ini, tidak mengatasi pulangan penanda aras -3.13% dengan perbezaan 2.58%. Sejak awal tahun sehingga kini, Dana memulangkan -6.91%, tidak mengatasi pulangan penanda aras -3.60% dengan perbezaan 3.31%. Ekuiti global jatuh pada Mac apabila Presiden AS Donald Trump memperhebat kempen tarifnya terhadap rakan dagang utamanya. AS menggubal tarif dan mengancam akan mengorak langkah selanjutnya yang disasarkan kepada Kanada, Mexico dan EU. Indeks stok merosot di seluruh AS, Eropah dan UK, tetapi sedikit berubah di Jepun, manakala pasaran memuncul meningkat. Bank pusat di UK dan AS mengekalkan kadar faedah pada Mac, sementara Eropah mengurangkan kadar faedah sebanyak 0.25%. Di peringkat stok, Marvell merupakan penggugat utama. Sahamnya yang lemah ekoran kebimbangan mengenai kemungkinan pengurangan perbelanjaan modal penskala hiper telah menekan sentimen. Pelabur semakin mempersoalkan sama ada Marvell akan dapat mengembangkan perniagaan cip Alnya dengan salah satu pelanggan utama, AWS. Saham Novo Nordisk merosot berikutan kebimbangan mengenai arah trend, penghasilan data CagliSema yang mengecewakan, dan kebimbangan tentang data Orfoglipron Eli Lilly yang akan dikeluarkan. Accenture lemah pada bulan itu walaupun pertumbuhan hasilnya kukuh. Pelabur bimbangkan peningkatan risiko kepada bahagian pendapatan daripada kontrak persekuatuan. Dari sudut positif, Total Energies dan stok tenaga yang lain meningkat berikutan lonjakan semula harga minyak susulan sekatan AS ke atas Venezuela dan Iran serta ancaman tarif sekunder ke atas minyak Rusia boleh mengetatkanimbangan pasaran. Dalam teknologi, kedudukan Dana Sasaran yang kekurangan pegangan dalam Microsoft telah meningkatkan pulangan relatif apabila ruang teknologi yang lebih luas terjual lantaran kebimbangan tentang pertumbuhan global selepas pertumbuhan KDNK AS diseret ke bawah oleh kebarangkalian tarif. Pelabur juga mempersoalkan pelaburan agresif oleh stok "magnificent seven". Pengurus Dana Sasaran mengurangkan sedikit pegangan dalam ASML untuk mengumpul wang tunai. Tiada perubahan pada tesis pelaburan.
