THERE IS NO PRICE TAG ON THE VALUE OF LIFE

But, there is one for each unfortunate life-changing incident.

Hospitalisation	<p>Over a third of Malaysians are directly paying for medical services using their own money.¹ With medical inflation climbing steadily at 12% per annum², private medical treatment is fast becoming a luxury that not many of us can afford. Malaysian employees also suffer from insufficient or limited coverage and inflexible terms when it comes to their protection.</p> <p>The medical benefit for employees offered by employer varies greatly as the coverage provided differs among the organisation. Some companies offer better employee benefits whilst there are other companies that provide only the basic needs of an employee. Having a 2nd coverage plan can help to reduce your financial burden over the inflating cost of medical expenses.</p>
Critical Illness	<p>1 in 4 Malaysians are expected to be diagnosed with cancer before the age of 75.³</p>
Accident	<p>In 2016, a total of 7,152 people died in road accidents in Malaysia.⁴</p>

WHAT IS TAKAFUL?

An arrangement based on mutual assistance under which takaful participants agree to contribute to a common fund providing for mutual financial benefits payable to the takaful participants or their beneficiaries on the occurrence of pre-agreed events.

Section 2(1) of the Islamic Financial Services Act 2013

Takaful is derived from Arabic word '*kafala*' which means **"Joint guarantee" or guaranteeing each other.**

Takaful literally means responsibility, guarantee, collective assurance and mutual undertaking. Broadly speaking, takaful is founded on the cooperative arrangement (*Ta`awun*) based on principles of mutuality and solidarity, encompassing the elements of joint indemnity and common interest.

There are three (3) aspects of mutuality embodied in takaful, namely mutual help/assistance, mutual responsibility and mutual protection.

When a person participates in a takaful scheme, he does not only seek protection for himself but also jointly cooperates with other participants to mutually contribute to one another in case of need.

// **MUTUAL ASSISTANCE** //

// **MUTUAL PROTECTION FROM LOSSES** //

// **MUTUAL RESPONSIBILITY** //

In essence, takaful is based on the principle of **"*Ta`awun*" (mutual cooperation / assistance)**
as such the act of participation is ***Tabarru`at* (charitable) in nature.**
