## Monthly Update / Laporan Bulanan Terkini

### Market Review

Malaysian equity markets outperformed regional markets for the third consecutive month in September, managing to report a lower decline. September was another relatively eventful month with the announcements of the New Industrial Master Plan (NIMP) 2030, which is targeting a 6.5% increase in manufacturing value-added by 2030 to RM587.8b, expecting to require a total investment of RM95b over seven years. News that the Malaysian prosecution was withdrawing all 47 charges of criminal breach of trust, graft, and money laundering faced by Deputy Prime Minister Datuk Seri Dr Ahmad Zahid Hamidi, after applying to discharge all the charges, came as a surprise. Corporate earnings reported in September were overall weaker than expected, resulting in downgrades to consensus earnings. Foreign investors continued to be net buyers of equity in September 2023, for the third consecutive month, after previously being net sellers for 10 consecutive months. The FBM Emas Shariah Index closed the month at 10,874.52, down 0.42% mom. The FBM Small Cap Shariah index rose by 1.09% for the month, outperformed the FBM Emas Shariah Index.

### Market Outlook

Global political issues continue to fester, without any resolution on the Russia-Ukraine conflict, and US-China relations remain tense. There are still some diverging views on the risk of a recession, but for now given the continued resilience of the US economic data, and the persistent stickiness of inflation, investors are now accepting that interest rates in the US will be higher for longer. Domestically, equity markets were relatively resilient in September versus our regional peers. Budget 2024 will be unveiled on the 13th of October and will be an event to watch. We are expecting more details to be released regarding the mechanism for the targeted fuel subsidy, and how they will carry out the luxury tax mentioned at the re-tabled Budget 2023. However, investor sentiment may be under pressure from the continued weak corporate earnings and challenging consumer environment, potentially hampering earnings growth for 2024. M&A as a thematic play met with some hurdles as the KLK-Boustead Plantation acquisition has fallen through and now LTAT will step in to take over Boustead Plantations. There is also downside risk from policy execution of the various new measures and policies as announced by the government. Persistent inflation will likely continue to be a bug-bear for the market, tighter household disposable incomes will continue to plague demand. Nevertheless, we remain cautiously optimistic, and any correction in the market will provide us the opportunity to accumulate fundamentally sound stocks.

### Fund Review & Strategy

The Fund returned 0.85% for the month, outperforming the benchmark return of -0.42% by 1.27%. Year-to-date, the fund returned 0.65%, outperforming the benchmark return of -0.58% by 1.23%. The outperformance in September was mainly attributed to the underlying fund's holdings in selected technology, consumer discretionary and energy sector. We will maintain our position in high dividend yielding stocks as we think it will remain resilient as uncertainties remain; namely geo-political tensions and volatility as global central banks are still bent on raising interest rates to target inflation. We would look for good bargains come any exaggerated market swings.

### Tinjauan Bulanan

Pasaran ekuiti Malaysia mengatasi prestasi pasaran serantau bagi bulan ketiga berturut-turut pada September, berjaya melaporkan penurunan yang lebih rendah. September merupakan satu lagi bulan yang agak penting dengan pengumuman Pelan Induk Perindustrian Baharu (NIMP) 2030, yang menyasarkan peningkatan 6.5% nilai tambah pembuatan menjelang 2030 kepada RM587.8 bilion, menjangkakan keperluan jumlah pelaburan sebanyak RM95 bilion dalam tempoh tujuh tahun. Berita bahawa pihak pendakwaan Malaysia menarik balik semua 47 pertuduhan jenayah pecah amanah, rasuah, dan pengubahan wang haram yang dihadapi Timbalan Perdana Menteri Datuk Seri Dr Ahmad Zahid Hamidi, selepas memohon untuk melepaskan semua pertuduhan, mengejutkan. Pendapatan korporat yang dilaporkan pada September secara keseluruhannya lebih lemah daripada jangkaan, lalu mengakibatkan penurunan taraf pendapatan konsensus. Pelabur asing terus menjadi pembeli ekuiti bersih pada September 2023 bagi bulan ketiga berturut-turut, selepas menjadi penjual bersih selama 10 bulan berturut-turut sebelum ini. Indeks FBM Emas Shariah menutup bulan pada 10,874.52, turun 0.42% MoM. Indeks FBM Small Cap Shariah meningkat 1.09% pada bulan tinjauan, mengatasi prestasi Indeks FBM Emas Shariah.

### Gambaran Bulanan

Isu politik global terus meruncing, tanpa sebarang penyelesaian mengenai konflik Rusia-Ukraine, dan hubungan US-China berterusan tegang. Masih terdapat beberapa pandangan yang berbeza tentang risiko kemelesetan, tetapi buat masa ini mengambil kira data ekonomi US yang mamparn dan inflasi yang berterusan melekit, pelabur kini menerima kadar faedah di US akan lebih tinggi bagi tempoh lebih lama. Di dalam negeri, pasaran ekuiti secara relatifnya mamparn pada September berbanding pasaran rantaui seangkatan kami. Belanjawan 2024 akan diumumkan pada 13 Oktober dan akan menjadi acara penting untuk diikuti. Kami menjangkakan lebih banyak butiran akan dikeluarkan mengenai mekanisme subsidi bahan api yang disasarkan, dan pelaksanaan cukai mewah yang disebut pada pembentangan semula Belanjawan 2023 yang dibentangkan semula. Walau bagaimanapun, sentimen pelabur mungkin tertekan berikutan pendapatan korporat yang terus lemah dan persekitaran pengguna yang mencabar sekaligus berpotensi menghalang pertumbuhan pendapatan tahun 2024. M&A yang menjadi tema permainan saham berdepan beberapa halangan apabila pemeroletan KLK-Boustead Plantation gagal dan kini LTAT akan mengambil alih Boustead Plantations. Terdapat juga risiko ke bawah berikutkan pelbagai langkah pelaksanaan dan dasar baharu seperti yang diumumkan oleh kerajaan. Inflasi yang berterusan mungkin akan terus menjadi iguan buat pasaran, manakala pendapatan boleh guna isi rumah yang lebih sempit akan terus membenggu permintaan. Namun begitu, kami kekal optimistik namun berhati-hati, dan sebarang pembetulan pasaran akan memberi kami peluang untuk mengumpul saham yang pada asasnya kukuh.

### Tinjauan dan Strategi Dana

Dana menghasilkan pulangan 0.85% pada bulan ini, mengatasi pulangan penanda aras -0.42% sebanyak 1.27%. Sejak awal tahun sehingga bulan tinjauan, Dana menjana 0.65%, mengatasi pulangan penanda aras -0.58% sebanyak 1.23%. Prestasi baik pada September disebabkan terutamanya oleh pegangan pendasar Dana dalam sebilangan saham teknologi, pengguna bukan keperluan dan sektor tenaga. Kami akan mengekalkan kedudukan sebagai saham yang menghasilkan dividen tinggi kerana kami berpandangan bahawa ia akan kekal berdaya tahan apabila ketakpastian berterusan; iaitu ketegangan geo-politik dan ketaktentuan kerana bank pusat global masih cenderung menaikkan kadar faedah untuk menyasarkan inflasi. Kami akan mencari tawaran yang baik susulan apa-apa perubahan pasaran secara berlebihan.
