Monthly Update / Laporan Bulanan Terkini

Equities

Market Review

Malaysian equity markets performed well in the month of July, after 6 months of consecutive monthly declines, outperforming regional markets, especially on USD basis, as the MYR appreciated by 3.54% against the USD. In the second half of July, we saw foreign inflows into Malaysian equities, and we ended the month with net foreign buying of RM1.4b, after 10 consecutive months of foreign outflows since Sept 2022. Towards the end of the month, PM Dato Seri Anwar Ibrahim unveiled his plans for an economic reset via the MADANI Economy Framework, and then announced the National Energy Transition Roadmap (Phase 1) the same day. The FBM Emas Shariah Index closed the month at 10,952.72, up 5.16% mom. The FBM Small Cap Shariah index rose by 4.92% for the month and underperformed the FBM Emas Shariah Index.

Market Outlook

Global political issues continue to fester, without any resolution on the Russia-Ukraine conflict, and US-China relations remain tense. Whilst the global banking crisis seems to have so far been averted, this still something investors should remain vigilant about. There are still some diverging views on the risk of a recession, but for now, economic data from the US still points to resilience, and inflation expectations have been tempered, although this remains fluid with continued volatility in commodities such as grains and oil. Domestically, equity markets rallied end of July with the announcement of the MADANI Economy and National Energy Transition Roadmap (NETR) phase1, with phase 2 to be announced end August. Six states will go to the polls on the 12 Aug 2023, and our base case is still for the status quo to remain in those states, and hence the Federal Unity government can continue their administration. The recent reforms announced by the government are setting the macro framework for Malaysia, which is a step in the right direction, but more details are required. We are cautiously optimistic on the outlook, as political overhang may be removed assuming our base case plays out.

Fund Review & Strategy

The Fund returned 2.76% for the month, underperforming the benchmark return of 4.92% by 2.16%. Year-to-date, the fund returned -1.60%, underperforming the benchmark return of 3.19% by 1.59%. The underperformance in July was due to the underlying fund's underweight positions in materials and technology sector. We will selectively increase equity exposure as and when we see opportunities in the market and will build positions for the longer term. The Fund seek to invest in fundamentally strong companies with above market growth potential. The Fund will stay flexible and agile to seek value to invest during heightened market volatility.

Ekuiti

Tinjauan Bulanan

Pasaran ekuiti Malaysia menunjukkan prestasi bulanan yang baik pada Julai, selepas mencatat 6 bulan penurunan berturut-turut, sekaligus mengatasi prestasi pasaran serantau terutamanya pada asas USD, apabila MYR meningkat 3.54% berbanding USD. Pada separuh kedua Julai, kami menyaksikan aliran masuk asing ke dalam ekuiti Malaysia, lalu mengakhiri bulan tinjauan dengan belian bersih sebanyak RM1.4 bilion, selepas merakamkan aliran keluar asing selama 10 bulan berturut-turut sejak September 2022. Menjelang akhir bulan, PM Dato Seri Anwar Ibrahim mendedahkan rancangannya untuk menetapkan semula ekonomi melalui Rangka Kerja Ekonomi MADANI, dan kemudiannya mengumumkan Pelan Hala Tuju Peralihan Tenaga Negara (Fasa 1) pada hari yang sama. Indeks FBM Emas Shariah menutup bulan pada 10,952.72, naik 5.16% bulan ke bulan (MoM). Indeks FBM Small Cap Shariah meningkat sebanyak 4.92% pada bulan tersebut, mengatasi prestasi Indeks FBM Emas Shariah.

Gambaran Bulanan

Isu politik global terus meruncing, konflik Rusia-Ukraine belum terlerai, manakala hubungan US-China berterusan tegang. Sungguhpun krisis perbankan global dapat dielakkan setakat ini, namun pelabur masih perlu berwaspada ke atas perkara tersebut. Beberapa pandangan yang berbeza tentang risiko kemelesetan masih berlebar namun buat masa ini, data ekonomi dari US masih menunjukkan daya tahan, manakala jangka inflasi mulai surut, walaupun ianya masih ada berikutkan ketaktentuan komoditi seperti bijirin dan minyak yang berterusan. Di dalam negeri, pasaran ekuiti meningkat pada akhir Julai dengan pengumuman Pelan Hala Tuju Peralihan Tenaga Negara dan Ekonomi MADANI (NETR) fasa1, dengan fasa 2 akan diumumkan pada akhir Ogos. Enam negeri akan mengundi pada 12 Ogos 2023, dan kes asas kami ke atas negeri-negeri tersebut masih sama, maka oleh itu kerajaan Perpaduan Persekutuan boleh meneruskan pentadbirannya. Pembaharuan yang diumumkan kerajaan baru-baru ini menetapkan rangka kerja makro Malaysia, yang merupakan satu langkah ke haluan yang betul, tetapi butiran lanjut masih diperlukan. Kami optimistik namun berhati-hati terhadap gambaran ekonomi, kerana keadaan politik yang tidak keruan sebelum ini mungkin ternotkah, apabila kes asas kami diandaikan menyerlah.

Tinjauan dan Strategi Dana

Dana memperoleh pulangan 2.76% pada bulan tinjauan, tidak mengatasi pulangan penanda aras 4.92% sebanyak 2.16%. Sejak awal tahun sehingga bulan tinjauan, Dana memulangkan -1.60%, tidak mengatasi pulangan penanda aras 3.19% sebanyak 1.59%. Prestasi hambar pada Julai disebabkan oleh kedudukan dana pendasar yang kekurangan pegangan dalam sektor bahan dan teknologi. Kami secara terpilih akan meningkatkan pendedahan ekuiti apabila kami dapat peluang tersedia di pasaran dan akan membina kedudukan jangka panjang. Dana ini berusaha untuk melabur dalam syarikat yang pada asasnya kukuh dengan potensi pertumbuhan mengatasi pasaran. Dana akan kekal fleksibel dan tangkas untuk mencari nilai agar dilaburkan semasa ketaktentuan pasaran meningkat.
