## Monthly Update / Laporan Bulanan Terkini

### Fund Review & Strategy

The Fund returned 4.37% for the month, underperforming the benchmark return of 5.69% by 1.32%. Year-to-date, The Fund returned 10.30%, outperforming the benchmark return of 10.03% by 0.27%. Global developed equity market continued its rally from January despite negative surprises on the US interest rate pathway where market expectation of 5-6 cuts by US Federal Reserve in 2024 was reduced to 3-4 cuts and the first rate cut would no longer be in March meeting as well as unlikely to be in May meeting. The positive market price action resonates with the Target Fund Manager's expectations where market would continue to be more heavily driven by the individual companies' earnings strength as compared to macro updates . Reported companies have shown that they improved in optimizing costs and delivering sales leverage as there were higher percentage of companies delivering positive EPS surprises than sales surprises. By region, Europe contribution was more than offset by North America and Asia Pacific. By sector , Communication Services was the main detractor as Alphabet lagged Meta Platforms in terms of execution delivery and earnings surprises. Positive allocation with no exposure in Energy and Consumer Staples was offset by overweight in Healthcare and underweight in Consumer Discretionary. Cash is well managed and no longer a drag as market continued its momentum and rallied in February. The top contributors to performance were TSMC and Schneider Electric. TSMC continued to enjoy the momentum from strong AI and PC/smartphone recovery. Schneider Electric guided better than street expectation and intact with mid-term target mentioned in CMD 2023. FY24 organic revenue growth of 6-8% and adjusted EBITA margin of 18%-18.2% is well supported by strong underlying electrification trend including data centers expansion. The top detractors to performance were Daikin and Adobe . Daikin continued to experience near-term weakness in the US residential HVAC and EU heat pumps space. However, the Target Fund Manager is optimistic that Daikin is positioned to enjoy from the US regulatory tailwind of mandatory refrigerant changes in 2025. OpenAI introduced Sora, which is a text-to-video AI model, and surprised the market on the potential industry disruption. While the Target Fund Manager acknowledged the rising threats, they think there could be copyright challenges for Sora to overcome and they would monitor Adobe's Firefly and AI developments to check for its product suite compatibility.

### Tinjauan & Strategi Dana

Dana memberikan pulangan 4.37% pada bulan ini, tidak mengatasi pulangan penanda aras 5.69% dengan perbezaan 1.32%. Sejak awal tahun sehingga bulan tinjauan, Dana menghasilkan 10.30%, mengatasi pulangan penanda aras 10.03% dengan perbezaan 0.27%. Pasaran ekuiti maju global meneruskan peningkatannya sejak Januari meskipun terdapat kejutan negatif tentang lajuan kadar faedah US yang mana pasaran menjangkakan pemotongan 5-6 oleh Rizab Persekutuan US pada 2024, dikurangkan kepada 3-4 manakala pemotongan kadar faedah pertama tidak akan berlaku pada mesyuarat Mac mahupun mesyuarat Mei. Tindakan harga pasaran yang positif bersesuaian dengan jangkaan Pengurus Dana Sasaran yang mana pasaran akan turus mendapat dorongan lebih padu dari kekuatan pendapatan syarikat individu berbanding kemas kini makro. Syarikat yang dilaporkan menunjukkan pengoptimuman kos yang semakin baik lalu menyampaikan umpulan jualan kerana terdapat peratusan syarikat yang menyampaikan kejutan EPS yang positif itu lebih tinggi berbanding kejutan jualan. Mengikut rantaui, sumbangan Eropah lebih dari diimbangi oleh Amerika Utara dan Asia Pasifik. Menurut sektor, Perkhidmatan Komunikasi merupakan penjejas prestasi yang utama berikutnya Alphabet ketinggalan di belakang Meta Platforms dari segi pelaksanaan dan kejutan pendapatan. Peruntukan positif tanpa pendedahan dalam Tenaga dan Pengguna Asasi diimbangi oleh pegangan berlebihan dalam Penjagaan Kesihatan dan kekurangan pegangan dalam Pengguna Bukan Keperluan. Wang tunai diuruskan dengan baik dan tidak lagi menjadi halangan kerana pasaran meneruskan momentumnya dan meningkat pada Februari. Penyumbang utama kepada prestasi ialah TSMC dan Schneider Electric. TSMC turus menikmati momentum susulan pemulihan mantap AI dan PC/ telefon pintar. Schneider Electric bukan sahaja memandu lebih baik daripada jangkaan jalanan malah utuh dengan sasaran jangka pertengahan yang disebut dalam CMD 2023. Pertumbuhan hasil organik FY24 sebanyak 6-8% dan margin EBITA diselaraskan sebanyak 18%-18.2% disokong dengan baik oleh aliran elektrifikasi asas yang kukuh termasuk pengembangan pusat data. Penjejas prestasi teratas ialah Daikin dan Adobe. Daikin turus mengalami kelemahan jangka pendek melibatkan pam haba kediaman HVAC di US dan EU. Walau bagaimanapun, Pengurus Dana Sasaran optimistik bahawa Daikin berada pada kedudukan untuk menikmati perubahan bahan pendingin mandatori memandangkan perubahan peraturan US pada tahun 2025. OpenAI memperkenalkan Sora, yang merupakan model AI teks-ke-video, dan mengejutkan pasaran mengenai potensi gangguan industri. Walaupun Pengurus Dana Sasaran mengakui ancaman ini semakin meningkat, namun berpendapat mungkin terdapat cabaran hak cipta yang perlu diatasi oleh Sora, maka perkembangan Firefly dan AI Adobe akan dipantau untuk memeriksa keserasian produknya.
